

The Unibunny

The unibunny

Is inspiring for those children that love unicorns

Like me and my sister not so much my brother, let me tell you about

The unibunny.....

Her name is Sparkles.

She leaves glitter and Easter eggs all over the garden, and don't forget about magic eggs.

Her outfit has rainbows and magic stars on it. If you see her you would need sunglasses due to how beautiful she is, and her super bright outfit plus all the magic sparkles!!!!

She lives in a cave by a waterfall and surrounded by magical fairies.

Sparkles travels by "Tropping", since she is part unicorn and bunny, Trotting and Hopping.

All at the same time pretty cool right? I know people think that the unicorns aren't real.
