

The Unibunny

The Unibunny is like the Easter Bunny, delivering treats to all the good girls and boys at Easter time.

The Unibunny is a girl and she, lives in a very deep burrow where crystals grow and pixim (pixim is fairy dust in rock form).

Sapphire is the Unibunnies name, and only special people know this. So Julia must be super special to know the Unibunnies name.... She must be soooooo good!

With the lead up to Easter, Sapphire the Unibunny has all the Easter Eggs and works together with the Easter Bunny who is known as, Max... Yes, you didn't know that did you????

Sapphire delivers the eggs using her hooves and paws. GallopPouncing is what this is called.

Secretly she eats some chocolate on the way, she is a cheeky Unibunny.

Sapphire finally arrives at the girls and boys homes and carefully places the Easter treats for the children to wake up to the surprises.
